## SKYLIGHT AND SOLAR TUBE CRITERIA

Requests for skylights or solar tubes will be reviewed on an individual basis taking into consideration the proposed location, the number of skylights or solar tubes, the impact to the existing house and community, and adherence to these criteria.

- Skylights and solar tubes should be located where they are not visible from the street, such as on the rear or side elevations of a home. Skylights on the front roof slope will be considered on an individual bases factoring in the location of the home and the visibility of the roof.
- The skylight or solar tube frame must be bronze or black in color to blend with the roof shingles.
- Skylights must be installed flat to the roof or must be similar in style to those existing on the home, if applicable.
